PROFESSIONAL SUMMARY

Clean & Balanced Results-oriented Cloud Engineer with over 1 year of experience in infrastructure monitoring, application deployment, and server management. Proven ability to ensure system reliability, streamline service operations, and maintain high-availability environments using tools like Zabbix and TS plus. Passionate about leveraging cloud and DevOps practices to drive operational efficiency.

SKILLS

- Docker = Packaging, Containerize, Images, DockerFile, Registry, Volumes, Network, Compose.
- Python = Data types, Strings, List, Dictionary, Tuples, Loops, Scopes, Closure, OOPS, Decorators.
- Git and Github = Git, VCS, Commit, Remote repo, Branching and Merging, Forking and Pull Request, Gitignore, Cloning, Clean, Tags.
- AWS = Hypervisor, IaaS, PaaS, SaaS, IAM, EC2, EBS, AMI, ELB & ASG, S3, RDS, DynamoDB, CloudFormation, S3 Route, CloudFront, ECS, EKS.
- Kubernetes = Container, Cluster, Worker Node, Master, Kubelet, API Server, Pod, Scheduler, Volumes & Data, Persistent Volume.
- Linux = File compression, Hard & Soft link, Alias, File system, File permission, ACL, Disk space monitoring, Process status & termination, service management, process monitoring, cron jobs, anacron, Network troubleshooting, AWK, package management, user account management, SSH, ownership, rsync, FTP, NFS, samba server,
- Zabbix = Monitoring, Alerting, Dashboards, Triggers, Agents.
- TS Plus = Remote Desktop, Session management, User Access control, Application publishing, Multi-user sessions, Session monitoring, User profile management, License management.
- Web Development = HTML, CSS and basic JavaScript.

WORK EXPERIENCE

Cloud Engineer

Mieux Technologies Pvt. Ltd., New Delhi, India

March 2025 – Present

- Monitored server and service alerts using Zabbix, ensuring rapid identification and resolution of infrastructure issues to minimize downtime.
- Created and configured custom triggers to proactively detect anomalies and notify teams before issues escalated.
- Onboarded and added new hosts/devices to Zabbix monitoring, expanding infrastructure visibility across the environment.
- Administered user access and permissions within TS Plus, maintaining proper access controls and security compliance.
- Published and maintained applications via TS Plus, enabling seamless remote software delivery to users.
- Troubleshot connectivity issues for remote users, diagnosing session failures and restoring access with minimal disruption.

EDUCATION

Master of Computer Applications Maharshi Dayanand University, Rohtak, Haryana	2025: Present
Bachelor of Computer Applications Maharshi Dayanand University, Rohtak, Haryana	Graduated: 2024
KKC. Quetta D.A.V Sr. Sec. School (Class XII) CBSE Stream: Commerce 73%	Graduated: 2020

CERTIFICATIONS

- Master’s in Cloud Computing [\[Link\]](#)
- Oracle Cloud Infrastructure 2025 Certified DevOps Professional [\[Link\]](#)
- Microsoft Office Specialist Master Certification (MOS) [\[Link\]](#)
- AICTE Hackathon Achievement Certificate – [First Position] [\[Link\]](#)
